

Jupiter Juicemaskine Melkværn Queen 1

867200 Juicepresso. 3 in one juicer
2140,00 (2675,75)

Eschenfelder Spirebakke

330459 Eschenfelder Spouter
21,4 cm. Keramik med si i ædelstål. **263,00 (328,75)**

Prøv med Karse, Sennep eller Rucola frø.

Soyabella Soyamejeri

010439 Soyabella Soyamælk Mejeri.
959,00 (1198,75)

Q-001: **Queen 1 220V**
Fornemt Europæisk håndværk i bøgefiner.
Ægte stenmølleværk. Corundum i keramik,
Kapacitet:
Mølletragt ca. 1300 gr.
125 gr. pr. minut når du maler fint mel. **2059,20 (2574,00)**

Melkværn Oktagon 1

O-001: **Oktagon 1 220V**
Fornemt ekstra solidt Europæisk håndværk i bøg.
Ægte stenmølleværk. Corundum i keramik,
Kapacitet:
Mølletragt ca. 1100 gr.
125 gr. pr. minut når du maler fint mel. **2637,60 (3297,00)**

hawos.

Uddrag af Ralf pigges interessante omtale som den står skrevet på det Engelske sprog:

- how nice that you would like to find out about grain mills and natural foods.
We would be glad to show you our mills and other products having everything to do with natural foods, since, when nutrition-conscious people switch over to whole foods, the decision for self-milled grain is among the first steps.
"Castrated" was the word my father used for shop-bought flour. And like him, I have always preferred to eat bread, cake and muesli made at home from freshly ground cereals. To us castrated flour was something white, tasteless, which lasted forever! not even suitable for mice.
In our family, having freshly ground flour every day was a matter of fact. After all, great-grandfather Garbe came from Hamelin famous not only for the Pied Piper, but also for its mills and worked there as a grain and feed merchant.
Some of my early holidays were spent near a windmill. I would sit and watch the miller for hours; listening to him talking about how mills are built and how they work.
Since 1977 I have been producing grain mills for household use. I am particularly fond of our **hawos** grain mills, each of which is of outstanding quality and has its own individually characteristic beauty.....

Müsli valsemaskine

OE001: **Flocker Phönix**
Solid hånddrevnen model.
798,40 (998,00)

hawos.

Ice Cream maschine

Ædelstål/sort.

Bestem selv hvad din sunde is bør indeholde!
1,5 l. på ca. 30 minutter.
848806 Unold Cortina Ismaskine **2397,60 (2997,75)**
Din egen sunde flødeis, sorbert eller soya is. 1,5 l.

Lidt om mel og brugen af din nye kværn:

Kværnen er meget vigtig for ernæringen. Er mel blot en måned gammel kan det vigtige e-vitamin være faldet med ikke mindre end 20%. Brug derfor altid din friskmalede mel straks for bedste sundhedsværdi og smag.

De to røde transportskruer fjernes under overdelen inden formalingen. Du kan male fra meget fin til grov mel ved at indstille håndtaget fra 1 - 6. Tænd kværnen inden kornet kommer i og sluk først når kværnen er tom. Kornet skal være tørt. Ikke olieholdige frø kun: Byg, durum, emmer, enkorn, guinua, hirse, majs (ikke den poppende), hvede, ris, rug & spelt. Havre skal være ristet og malet eller blandet med hvede rug eller spelt. Kan let rengøres med støvsuger f. eks. hvert kvartal. Meget lang garanti på Hawos kvalitetsmaskiner. Undgå dog fremmedlegemer i formalingen for at styrke garantien. Fragtfri levering
